

# BIO GREENCOMPOST

## SOIL CONDITIONER

Bio GreenCompost soil conditioner is a high-quality unique mix made out of 100% green compost. Its biological accreditation guarantees best results for biological soil improvement.

### IT'S GOOD FOR:

Bio GreenCompost soil conditioner is ideal because it improves soil quality, fostering better plant growth and health, while it also improves water retention in soil, reducing the need for irrigation and supporting water conservation. As a natural soil improver it lowers reliance on chemical fertilizers, reducing pollution risks in soil and water.

## TECHNICAL SHEET

### CHARACTERISTICS

Electrical conductivity	40 - 60 mS/m (+/-25%)
pH	7,0 - 7,5
Total fertilizing	X
