

FYTOGEOA

POTTING SOIL FOR GENERAL USE

Special potting soil from a mixture of blond, black peat, green compost and cocopeat, suitable for indoor and outdoor plants. It is enriched with fertiliser (N-P-K), trace elements and calcium carbonate, which results to a homogeneous product ideal for the growth of your plants.

IT'S GOOD FOR:

Fytogea is the best choice for your plants, because it offers better growth, longer lifespan, rich flowering and beautiful green leaves.

TECHNICAL SHEET

CHARACTERISTICS
